#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 08 September 2009.

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/8/09 has been entered.

### ***Information Disclosure Statement***

2. The information disclosure statement(s) (IDS) submitted on 9/8/09 and 9/18/09 has been received and made of record. Note the acknowledged form PTO-1449 enclosed herewith.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 41 and 42 are rejected under 35 U.S.C. 102(b) as being anticipated by US 4,969,458 to Wiktor.

Wiktor discloses a method of forming a stent (1) on the inflated portion of a balloon catheter (7) [col. 4, lines 42-47; Fig. 2]. The stent is releasably retained within depressions formed on the inflatable portion of the balloon catheter, as seen in Fig. 2.

It is evident from the figure that the loops (6) of stent (1) are releasably retained by depressions formed in the balloon, as communicated by the short lines emanating therefrom. Crimping the stent onto the balloon is what causes such depressions [col. 3, lines 24-28], and the device that crimps the stent to the balloon is considered a softening device since it is able to deform a relative stiff stent unto said balloon.

***Allowable Subject Matter***

5. Claims 25-35, 45 and 46 are allowed.
6. Claims 43 and 44 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

7. The applicant's submission did not include any arguments regarding the rejection provided above. Therefore, the rejections under 35 U.S.C. 102(b) are maintained.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Darwin P. Erezo whose telephone number is (571)272-4695. The examiner can normally be reached on M-F (8:00-4:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jackie Ho can be reached on (571) 272-4696. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
